+ HANGING LIGHT FIXTURES +

• Proper Installation Of Deck Lighting •

Now, let's walk through a basic installation of railing and recessed step lighting. For this presentation we will be using "HIGHPOINT DECK LIGHTING" brand fixtures, model #HP-744R: Pikes Peak Recessed Step Light.

Installation instructions and building code requirements may vary. Please consult your local building department and specific manufacture instructions before installing your lighting. Also note there are many unique and creative ways to hide wire and utilize deck lighting. This article is just one of those ways. For more detailed installation instructions and creative ways of installing "HIGHPOINT DECK LIGHTING", please visit www.hpdlighting.com and click on the installation instruction link.

Deck lights are as much about the beauty they add to a deck, as they are about the light they produce.

The lighting fixtures should look almost as good on the deck during the day when there off, as they do at night when there on and glowing. Choose fixtures that appeal to your personal style and home décor.

Have Fun...

When looking at your beautifully lit deck it should make you smile!

LED Bulbs...

*Illumination and energy efficiency at it's best, with every LED bulb!
We offer an array of standard bulbs - to meet all your lighting needs.*

LED Standard!

G4-15 LED Diode (HP-936LED)

Lifetime: 50,000 Avg. Hrs.
Voltage: 12V or 120V
Watts: 2W
Size: 5/8" Dia. x 1-3/8" L
Color: Warm White

Medium Base LED (HP-937-L)

Lifetime: 50,000 Avg. Hrs.
Voltage: 12V or 120V
Watts: 5 W
Size: 2.3" Dia. x 4.37" L
Color: Warm White

MR-16 LED Bulb (HP-MR16LED)

Lifetime: 35,000 Avg. Hrs.
Voltage: 12V AC/DC
Watts: 5 W

Size: 1" Dia. x 2" L
Color: Warm White

S.C. Bayonet LED Bulb (HP-968-L)

Lifetime: 50,000 Avg. Hrs.
Voltage: 12V or 120V
Watts: 1.5 W
Size: 1" Dia. x 2" L
Color: Warm White

Wedge Base LED (HP-960-LED)

Size: 1/2" Dia. x 1-3/8" L
Color: Warm White
Watts: 1.5 W
Voltage: 12V AC/DC
Lifetime: 50,000 Avg. Hrs.

Bulb Fits:
All Step, Rail
and Brick lights

Magnitude Transformers

Our Magnitude Transformers come with an **Amazing 5 Year Warranty!**

The AC and DC transformers are designed for long-term use, to fit each job, small or large, for either with indoor or outdoor applications - **Superior Transformers accomplish what it takes!** These transformers are dimmable using any standard MLV TRIAC Dimmer.

12 Volt AC Transformers (M12)

- Can be used with LED and incandescent lighting applications

12 Volt DC Transformers (M12DC)

- Only to be used with LED lighting applications

Features:

Both AC and DC Transformers come in...

- 40 Watt
- 100 Watt
- 200 Watt

Color: Black

* All transformers to be used with our photo eye timer, switched outlet, or external timer.

Aurora 12 Volt DC Transformer (ODLDC)

- Only to be used with LED lighting applications

Features:

DC Transformers come in...

- 36 Watt
- 60 Watt

Color: Black

* All transformers to be used with our photo eye timer, switched outlet, external timer or **optional keychain remote**.

Photoelectric Timer (HPBLKPHOTO)

Specifications:

- Light Sensing Photocell Function Dusk to Dawn
- 1 - 8 Hour Settings
- On/Off Timer with Manual Override Switch

(For use with 24, 36, 60 watt transformers)

Aurora Remote Dimmer (DLTDIMMER)

- Low Voltage DC Dimmer

- Sturdy Weather Resistant Housing

All power packs are certified for safe operation and long life. Keyhole mountings are featured for ease of operation and installation!

Low Voltage Wire

(HP97-1/2-100)

Specifications:

- 18/2 Low Voltage Wire (Recommended for LED Use)
- 12/2 Low Voltage Wire (Recommended for Incandescent Use)

Available in rolls of 100', 250' & 500'!

Wire Nuts

(HP95-3/4 or ML22GF)

Specifications:

Silicone Filled - Wet Connect

- 18/2 Wire Nuts (For use with 18/2 wire only)
- Available in 10, 16, 20 & 100 count packs!

- 12/2 Wire Nuts (For use with 12/2 wire only)
- Available in 10, 16, 20 & 150 count packs!

Bore Bit

(HP990A)

Specifications:

High quality bit simplifies the installation process, so as to make it efficiently fast - Saving time and money!

Hanging Mount

(HP236X)

Size: 2-7/8" Diameter x 3/4" Thread Openings

Hanging Chain

(HP226X)

Size: 12" Length

Transformers are a necessity in the operation of a low voltage lighting system, it mounts to the home's exterior and plugs directly into the GFI outdoor receptacle (usually already existing). Transformers range in size from 60 watts up to 1200 watts. The size of transformer needed is calculated by multiplying the total number of fixtures by the wattage of each fixture's bulb (i.e. 6 step lights at 7 watts each = 42 total watts and 12 railing lights at 11 watts each = 132 total watts. Add the 2 totals together for a grand total of 174 watts. In this case the transformer chosen must operate a minimum of 174 watts. It is always a good idea to purchase a transformer with 50 to 100 extra watts available. This will save money in the long run by not having to replace the entire transformer if more fixtures are added to the project in the future. Most transformers operate on a maximum of 300 watts per circuit. Consult your transformer's instruction sheet to verify how many watts are allowed per circuit and take it into consideration when you are designing your lighting layout. You never want to overload your transformer's circuit.

HIGHPOINT

DECK LIGHTING

The Deck... is an extension of the home, HIGHPOINT DECK LIGHTING provides the means by which customers can carry the same level of design sophistication from the inside of their homes to their outdoor living environment. Offering the most expansive range of deck lighting in the industry, including custom lights, HIGHPOINT models are distinctive and stylish products, not typically available through standard retail outlets. We specialize in matching current fashion trends into our lighting arrangements, so decks can be a true extension of the home's décor.

The Design... HIGHPOINT offers a refined palette of creative lighting options to help beautify the consumer's living spaces. From classic to contemporary - HIGHPOINT DECK LIGHTING allows our customers the opportunity to express their individual styles throughout their outdoor living areas. We have brilliantly conceived of numerous lighting collections, to fulfill a cohesive design element for an overall pleasing appeal and heightened value to each and every property.

- *Numerous...* Metal & Glass Options!

The Environment... As an environmentally conscience manufacturer of high quality exterior lighting fixtures, HIGHPOINT utilizes the latest LED (Light Emitting Diodes) technology to ensure optimal energy efficiency for each lighting fixture. LED lighting technology produces a superior light quality with a low amount of electrical output. These LED lights are 40 times more efficient than incandescent lighting - saving hundreds of dollars over their lifetime!

The Warranty... HIGHPOINT's professional grade deck and landscape lighting is manufactured to meet the highest quality standards to ensure years of long lasting beauty and function. We believe in our product's quality, therefore we offer a limited lifetime warranty on several styles and finishes. This commitment demonstrates our confidence in our craftsmanship, quality of materials and understanding of their performance. Please refer to our website for further information... www.hpdlighting.com/home/warranty.
